# IKAFLOOR

## - The **ideal** floor system

Ikadan delivers a wide range of temporary floor systems for use in tents etc. Ikafloor tiles are just 20 mm thick. They are supplied as 50 x 50 cm and 100 x 50 cm. The elements are manufactured in durable plastic and have a hard-wearing, easy to clean surface. The special connection system ensures a floor covering that is both secure and highly stable.

IkaFloor is a modular construction floor, for countless applications. Ikafloor is easy to install. The 50x50 cm or 100x50 cm tiles are quick and easy to assemble. Edging can be affixed if required.

### **ATTRACTIVE APPEARANCE**

No matter what it is used for, Ikafloor is an attractive floor. The surface is suitable for indoor and outdoor use.

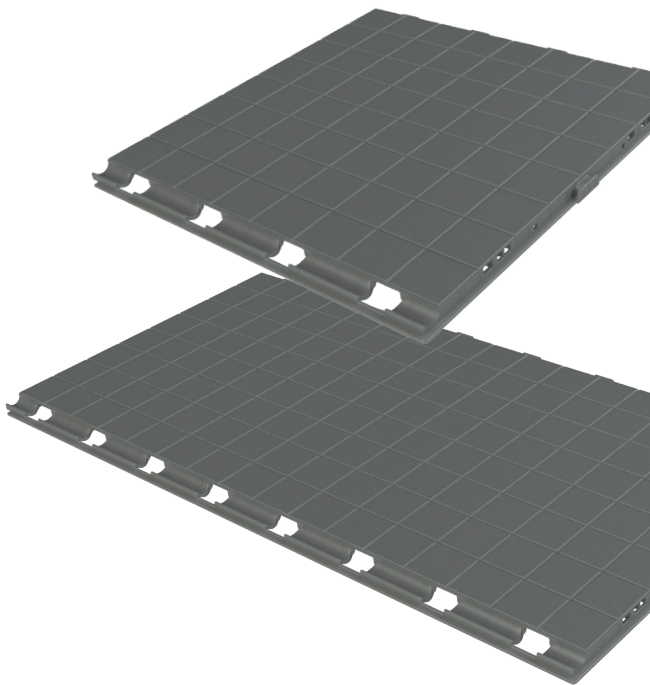

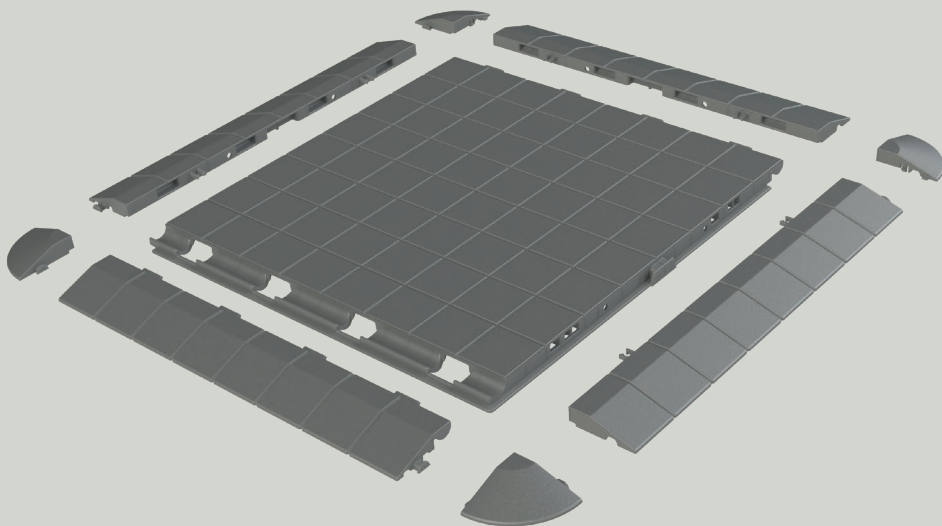

**SAVE SPACE  
AND EXPENSE  
DURING STORAGE
